

```
var balance = 325.00;  
var checkBalance = true;  
var isActive = true;
```

```
// your code goes here  
if (!checkBalance) {  
    console.log("Thank you. Have a nice day!");  
} else if (isActive && balance > 0) {  
    console.log("Your balance is $" + balance.toFixed(2) + ".");  
} else if (!isActive) {  
    console.log("Your account is no longer active.");  
} else if (balance === 0) {  
    console.log("Your account is empty.");  
} else if (balance < 0){  
    console.log("Your balance is negative. Please contact bank.");  
}
```
