

```
/*  
 * Programming Quiz: Even or Odd (3-2)  
 *  
 * Write an if...else statement that prints `even` if the  
 * number is even and prints `odd` if the number is odd.  
 *  
 * Note - make sure to print only the string "even" or the string "odd"  
 */
```

```
// change the value of `number` to test your if...else statement  
var number = 2;
```

```
if (number % 2 === 0) {  
  console.log("even");  
  
} else {  
  console.log("odd");  
}
```
